Profile

I am a builder, from my personal life to my professional one. I thrive by creating things and fixing any problems that are in my way. As a developer, building beautiful-looking and beautifully-running applications is what drives me. I love to utilize efficient code for back-end and databases for use in user-based web and native environments. Whether it be building cars, businesses, or websites, completion of difficult projects gives me immense joy.

Employment History

Software Development Imbedded Tutor, Spokane Community College, Spokane, WA

FEBRUARY 2020 – PRESENT

- As a student I was singled out by the instructors in the Software Development department to be an online tutor for the students in my classes as well as underclassmen.
- Tutored in Ruby, C#, JavaScript, Kotlin, HTML/CSS, Rails, Node.js, PHP, Swift, Java, GIT, Bootstrap, Agile, ASP.NET Core

Online Sales Counselor, TeamBuilder, Kirkland, WA

APRIL 2013 – FEBRUARY 2018

- Managed all incoming inquiries from potential home buyers 24/7. Builders like MainVue Homes in the Seattle and Dallas area hold me solely responsible for transitioning potential home buyers to representatives or to answer any questions/concerns immediately. On average 30+ calls/online inquiries a day are made, in which I was required respond in less than 5 minutes
- Responsibility for the 9+ builders is to get people into the Sales Models. I track inventory for each builder, which can be in the thousands of lots. Each lot is different, and each home has specific features.
- 2014 New Home Councils "Sales Counselor of the Year"
- Licensed agent January 2013 - Present

Sales Associate, Radio Shack, Everett, WA

MARCH 2010 – DECEMBER 2012

Sales Floor Associate and team lead focused on sales and technology. Management of retail sales as well as employee management.

Volunteer Church Missionary, The Church Of Jesus Christ Of Latter Day Saints, Port of Spain, Trinidad and Tobago

AUGUST 2007 – AUGUST 2009

Missionary for The Church of Jesus Christ of Latter-day Saints in Guyana and Trinidad

Sales Associate, Target, Lake Stevens, WA

SEPTEMBER 2006 – JULY 2007

Specialist (Manager) in the electronics department. Specialized in sales and inventory merchandising and scheduling.

CAD Drafter (Summer Job), Engineering Economics Inc., Seattle, WA

JUNE 2005 – JULY 2005

Worked with Engineers and Designers to convert paper markups to AutoCAD Drawings

Education

Associates In Applied Science - Software Development, Spokane Community College, Spokane, WA

Individual Certificates - .Net Developer, Android Mobile Development, Computer Science, Frontend Developer, Full Stack Developer, IOS Mobile Development, Mobile Developer, PHP Developer, Design, Web Developer

- Maintained a 3.9 GPA
- Hired by instructors as Tutor

Automotive

Mechanical Work (Hobby)

- Rebuilt motor following DOCUMENTATION, no other instruction
- Proficiency and knowledge in automotive repair, successfully maintain and repair personal fleet of cars in a competent and cost-effective manner
- Perform similar repairs on others cars
